

**You pay just £2.50 monthly line rental  
Lower cost calls, with great network coverage  
Works in any 3G locked or unlocked mobile phone!**

- Are you utilising your mobile contract packages, do you **regularly use less minutes** and features within your mobile bundle?
- Do you need a business mobile but **only make a few calls a month?**
- Do you **NOT want to commit** to a 2 year mobile contract?

**BtL's** pay as you use price plan means that you only pay £2.50 per month for your lines rental plus whatever else you use on top. This price plan is ideal for low usage business users. **3 month trial to ensure that the user is on the right tariff.**

**Why Choose Pay as you use?**

In the current economic climate it is important for companies to monitor and budget expenditure. If you are taking on a new employee and they require a company mobile you will be signed to a minimum 12 month contract for around £40 per month which will cost your company a minimum £480 per year. Let's say the worst happens and your company can no longer afford your new employee, you'll be left paying the full fixed cost contract. With pay as you use you'll only pay the low fixed cost of £2.50 a month (£30 a year).
